Cellular Automata

Call for contributions and participation

Schloß Rauischholzhausen

March 25 – 27, 1996

Cellular Automata — Workshop 96 —

In cooperation with the IFIP working group 14.5 we are inviting everyone interested in cellular automata to a workshop taking place in Schloss Rauischholzhausen (Germany) from March 25, 1996 to March 27, 1996.

Contributions concerning all aspects of cellular automata are welcome, e.g. recognition of formal languages, computational complexity, relations to other computational models, generalizations of cellular automata, structure of (classes of) cellular automata, cellular automata as models for real phenomena.

All informations concerning the workshop are also available on the World Wide Web. The URL is:

`http://www.informatik.uni-giessen.de/cellular-automata-96/`

Steering Committee

Karel Čulik	(USA)
Max Garzon	(USA)
Eric Goles	(Chile)
Jozef Gruska	(Slovakia)
Giancarlo Mauri	(Italy)
Jacques Mazoyer	(France)
Hiroshi Umeo	(Japan)
Roland Vollmar	(Germany, chairman)

Programme

We are planning to have three full days of activity in order to allow as long talks and an as intensive exchange of ideas as possible.

If there is enough interest, a "wild cat session" can be organized where apparent (or feigned) difficult problems and surprising solutions can be presented.

The official language of the workshop will be English.

Summaries

We want to have available a collection of short summaries (1–2 pages) of the talks at the beginning of the workshop. Participants are therefore urged to send their summary until Friday, March 8, 1996 in LaTeX format to one of the organizers.

Full papers

After the workshop participants are invited to submit full versions of their contributions. Papers passing the usual refereeing process will be published as proceedings or a special issue of an international journal. The deadline for submission of full papers is Monday, April 15, 1996.

Registration

The preferred way of registration for the workshop is by using the World Wide Web:

`http://www.informatik.uni-giessen.de/cellular-automata-96/registration.html`

If you want to register in writing fill in the right column on the back side of this leaflet, cut it off and send it to the organizers using mail or fax.

Please register until Friday, February 2, 1996.

Important dates and deadlines

registration:	Feb 2, 1996
summaries:	Mar 8, 1996
workshop:	Mar 25, 1996 – Mar 27, 1996
full papers:	Apr 15, 1996

How to get there

Schloß Rauischholzhausen is located at the border of a village with the same name in a delightful scenery near Gießen in Germany, approximately 80 km north of Frankfurt(Main).

If you want to travel to Schloß Rauischholzhausen

by airplane: Fly to Frankfurt(Main). From there travel to Marburg by train.

by train: Travel to Marburg. Transportation from there will be arranged by the organizers.

by car: If you are coming from the south, first get to Gießen, otherwise to Marburg, and from there to Rauischholzhausen.

Further informations can be found on the World Wide Web. Participants will receive maps for their orientation by mail.

Accommodation

Schloß Rauischholzhausen is the meeting place of the University of Gießen. Besides seminar rooms there are also sufficient overnight accommodations in the Schloß itself. We are looking forward to animated discussions and a lively exchange of ideas.

The costs per night including all meals for one day are 80 DM. You'll have to pay at the venue in cash or by voucher check. We cannot accept credit cards, sorry.

The number of participants is limited to some above forty.

Any questions?
